# Organize your workspace.

*Getting work done is messy enough. Clean up your space with these solutions.*

Beyond having a place for all your gadgets, both the *Total Tool Solution* and the *Single Tower* can organize tools, electrical wiring, pressured air fittings and even outlets.

Both of these systems are not just hangers, they are work benches, containers, tool stands, shelving and much more.

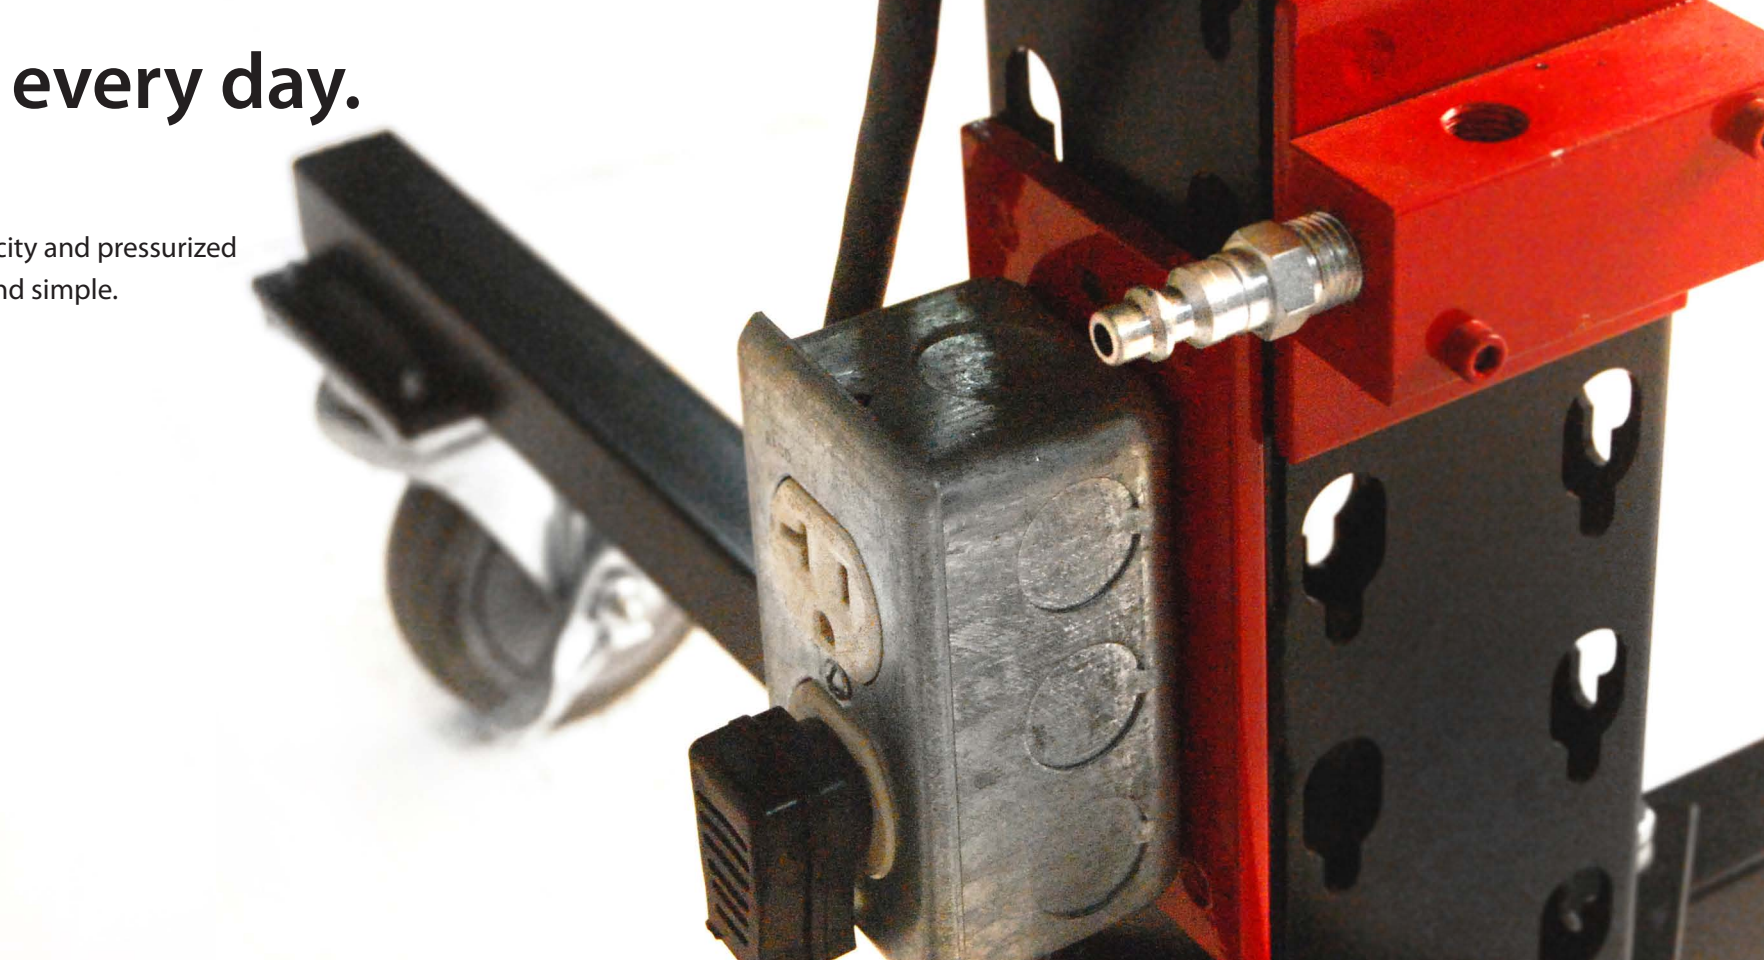

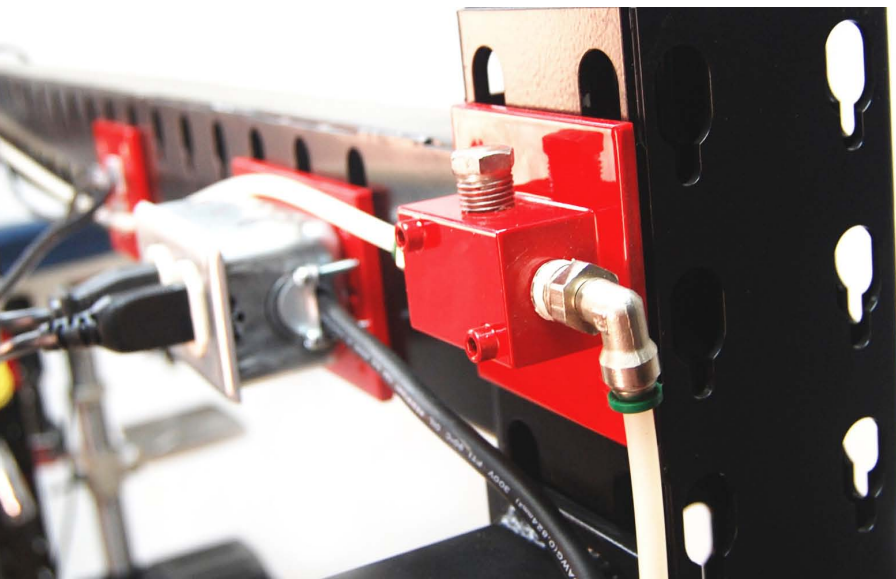

# Professional solutions for every day.

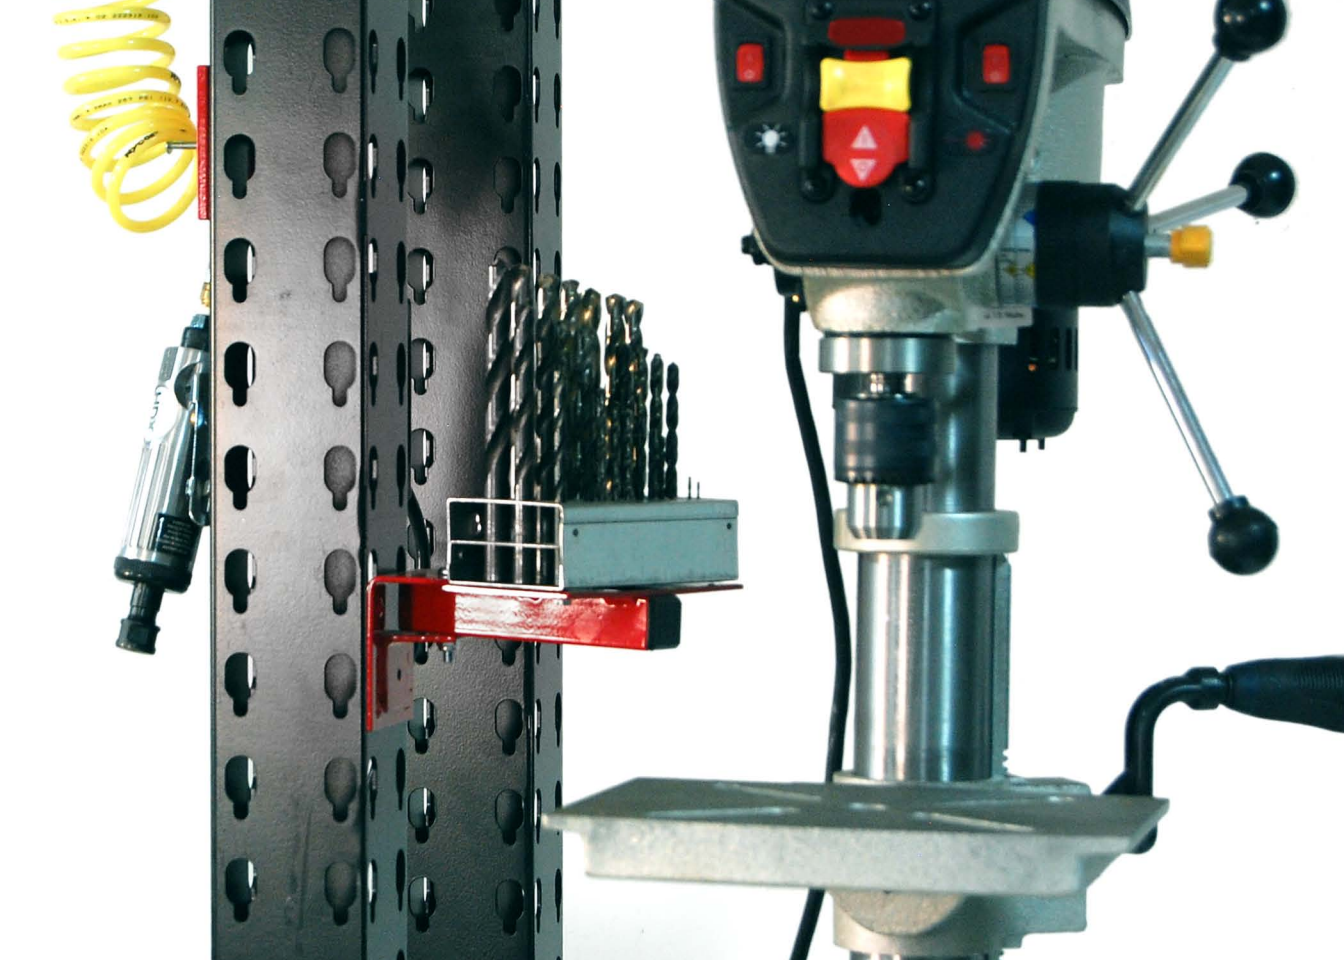

*It's your workspace, why not make it easy for you to use?*

With customizable attachments and single-point connections to electricity and pressurized air that can be placed anywhere on the system, getting to work is fast and simple.

Check out all the available attachments in the product catalog.

# Durable hardware that won't fail.

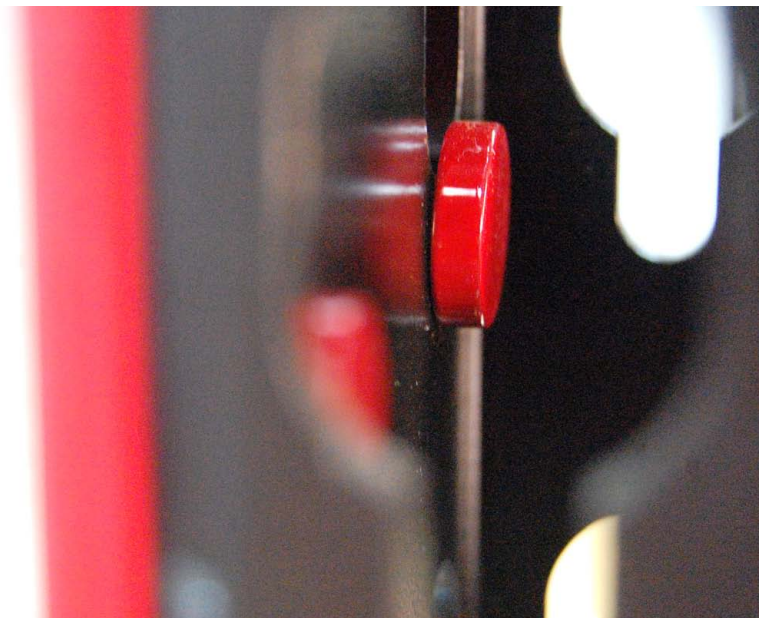

*Transformance's patent-pending teardrop connections hold even the heaviest of tools. But they also let you do quick work.*

The all steel frame and accessories can easily hold even heavy tools like grinders and saws but are also great for organizing drill bits, hammers and even pencils.

Plus, if you want to move your tools around, it's super simple to lift the brackets to put them anywhere. You'll find it so easy to rearrange things for good or just for now.

The patent-pending pin-in-pocket teardrop design holds accessories close to the frame so there is no sag for even heavy holders and tool platforms.

And, all the attachments fit both the *Total Tool Solution* and the *Single Tower* for perfect compatibility.

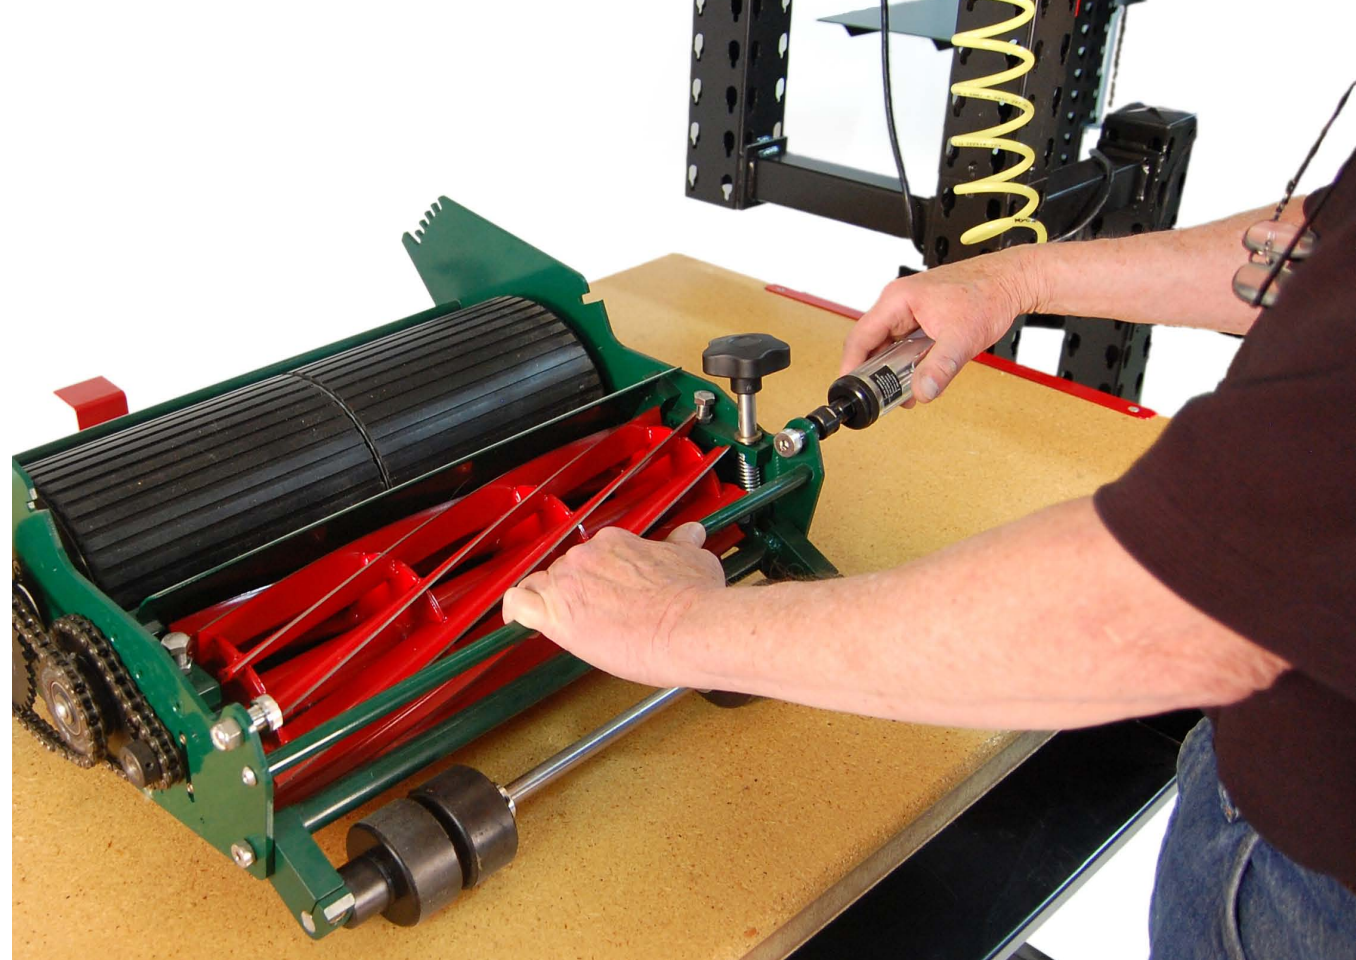

# An application for every size.

*Both the Total Tool Solution and the Single Tower are perfect for your professional workshop or your personal garage haven.*

The industry-leading customization abilities of these solutions means that you can make your workspace your own. Each one of the accessories is custom-designed to fit your needs.

Take a look at the catalog of towers and accessories starting on the next page.

# ST

single tower

The Single Tower provides the perfect work setting for both home and industrial use. All Transformance Tools' towers accept and support hand tool brackets as well as power tool brackets.

Our unique workstation is compact, mobile and easily configurable to reorganize and restructure around whatever the current task may be.

The Single Tower comes in 36" and 72" models. The taller tower turns into the perfectly compact workstation with our 16" x 34" steel work bench.

Comes with:

- 1 tower (36" or 72")
- 4 legs with heavy-duty locking casters

# TTS

total tool solution

Two 72" towers are combined with a work bench (sold separately) and overhead beam to produce the Total Tool Solution.

The unit is supported by four or more legs with 4" lockable heavy-duty casters for ease of mobility. The unit is quickly assembled and accepts all Transformance brackets, fixtures and accessories.

Comes with:

- 2 six-foot towers
- 8 legs with heavy-duty locking casters
- 1 overhead beam

*Additional units can be connected and locked together to form a production line or expand your Transformance Tools as the need arises.*
